WELCOME

Welcome to the NZ Compare Awards 2022 – you are in for an incredible night!

Year 6 of the leading utility industry awards is upon us and we are all set to celebrate the best in Broadband, Power and Mobile!

As the boundaries between utility industries continue to merge, we have responded to growing demand to increase the categories and industries celebrated by the NZ Compare Awards and will now recognise excellence and achievement within New Zealand's BROADBAND, ENERGY and MOBILE sectors.

It's going to be an exciting evening!

Our categories are consumer driven and carry real gravitas with the hundreds of thousands of Kiwis who use NZ Compare websites each year. The awards are an opportunity to be confident in the talent and vision your company has worked so hard towards.

Gavin Male, CEO, NZ Compare

YOUR HOST

Mike McRoberts

Finally we'll get to meet Mike! After the move to online in 2021, it is time to bring back a professional and we are delighted to confirm our host for the NZ Compare Awards 2022 as the multi-talented Mike McRoberts. Sit back and relax as Mike steers us through the awards evening with the perfect blend of wit and professionalism.

One of New Zealand's most recognisable faces, Mike McRoberts graces our TV screens bringing Kiwis nationwide, the six o'clock news bulletin with co-anchor, Samantha Hayes.

The former 60 Minutes current affairs host whose reporting career spans more than 20 years, is perhaps best known for his journalism work in some of the world's most dangerous places, covering conflicts in Afghanistan, Iraq, Lebanon, Gaza, East Timor and the Solomon Islands and some of the world's biggest natural disasters in China, Haiti, Pakistan and South East Asia and of course the Christchurch Earthquake.

With the energy, broadband and mobile industries merging into one venue and competitive banter encouraged, we hope our awards evening will be a memorable one for our host and for you, our valued guests!
